

The Department for Education has been asking centres to review [National Cyber Security Centre advice](#) following increasing number of cyber-attacks involving ransomware infections. The NCSC information supports centres in cyber security preparedness and mitigation work.

Ransomware attacks continue and the Department is reminding centres to review the NCSC advice and to take precautions. This includes ensuring that you have backups in place for your key services and data, including data for this year's Teacher Assessed Grades.

For ease of reference, the Department has highlighted key links relating to the NCSC cyber security guidance below:
